Dada Chellaramji Kripalani

Chairman, Jai Shivshakti Health & Educational Foundation

Note from the Chairman

Dear Sahayogi,

I sincerely wish that each one of you, your family members and colleagues are safe during the challenging days arised due to the pandemic.

The last year has been a testing time for each one of us. Many of us have lost their near and dear ones. The after effects have not spared any, be it is for the poor or rich, educated or illiterate, irrespective of class, religion age and gender The pandemic has impacted life at different intensity and depth. I pray to the almighty to rest the souls departed in peace and grant strength to the near and dear ones to bear the irreparable loss.

JSSF could not reach the desired budgeted outcome for 2020-21 due to various reasons, namely intermittent lockdowns and curfews along with a number of hospitals being converted to Covid Care Centres thereby restricting patients' mobility who visited hospitals only for emergency surgeries. Schools were closed

during the pandemic, university exams were postponed, trainings sessions were reduced and being conducted online whereby many families did not have accessibility to internet, smartphones, laptops etc. The Government announced the number of relief measures one of them being free ration to the needy and financially marginalized families which further impacted our philanthropic activities.

The measures taken by the Government and civil society organisations including vaccinations drives are now the platforms for the better days in the near future. This year, let us join hand together to curb the effect that the pandemic has left on people around us.

Before I conclude, I would like to render my profound gratitude to each partner organisation, their Trustees and the staff who relentlessly work under different challenging circumstances. They are actual agents of change who are making desired development through their work in the society.

JSSF's interventions are focused on the following areas of development through identified Non Profit Organisations all over India.

Below is the list of activities:

1. **Education:**
    a. Education Scholarship Program
    b. Interest free education loan
    c. Education Support for Special Children

2. **Health:**
    a. Heart surgery
    b. Scoliosis and Fusion surgery
    c. Retinopathy of Prematurity (ROP) & other eye surgeries

PROGRAM HIGHLIGHTS

1. COVID relief

It was the time of uncertainty; the daily wage earners were affected due the lockdown. Families suffered without earning, food and other basic needs.

- JSSF along with Jain International Trade Organisation distributed food packets to the needy people in several areas of Bengaluru.
- Offered treatment support to unaffordable patients admitted in hospital for COVID treatment.
- Supported children affected due to COVID who either lost one or both the parents who were provided food, shelter and education.
- Donated ventilators to Bhagwan Mahaveer Jain Hospital

2. GYANANGKUSH, PURBOTTAR VIKASH PARISHAD, TINSUKIA (ASSAM) – RESIDENTIAL SCHOOL FOR NEGLECTED AND NEEDY CHILDREN

Gyanangkush, who were earlier operating from a rented premise were donated a piece of land on which the entire block consisting of 8 classrooms and a bay of toilets was supported by JSSF. The premises have a capacity of 160 children, is currently home to 107 children studying from class 1 to 10.

JSSF supported 60 children by providing them required resources for the basic needs like food, clothing, shelter etc. The centre provides following services with the help of 14 teaching staff and 11 supporting staff:

- Residential Services
- Formal Educational services
- Extra curriculum activities
- Vocational Training

Good Practices at PVP

- Conducting regular Health Checkup of Children
- Annual education tour for the Children
- Providing extra-curricular activates to the inmates accordingly their interest
- Celebration of different festivals at the Child Care Institute (CCI)
- Leadership training among the inmates of the CCI
- Providing interaction with different professionals during their visits to CCI i.e. Army officers, Govt. Officers, literary person, Doctors, Engineers, Wing Commander etc.

3. Sankalp India Foundation (SIF)

Sankalp was initially running a four bedded BMT centre at People Tree Hospital, Yeshwanthpur. Understanding the increase in demand, JSSF leveraged the opportunity by negotiating with the Board members of Bhagwan Mahaveer Jain Trust on behalf of SIF. The discussions fructified, leading to a full-fledged BMT unit at 7th floor of Bhagwan Mahaveer Jain Hospital with enhanced facilities, such as

a. 10 bed for Bone Marrow Transplantation
b. 4 bedded ICU unit
c. 6 bedded post-transplant step down unit
d. 5 bedded day care centre

From 2014, JSSF is supporting Thalassemia management by providing medication, tests and food on the day they visit the centre for treatment. Over the last year, with the support from JSSF, 735 children were treated at different Thalassemia day care centres. The table below illustrates the children supported centre wise:

Centre Name	No of Children Supported
RMMG Hospital, Abu Road	34
Samraksha, Bangalore	186
TSCI, Nagpur	52
KLE, Belgaum	216
IGI, Bangalore	213
Wenlock Hospital, Mangalore	6
IRCS, Nellore	28
Total	**735**

Apart from the above, JSSF has also supported 10 BMTs in association with SIF.

4. Savitribai Phule Mahila Ekatma Samaj Mandal, Aurangabad (SPMESM)

Under the leadership of Dr. Prasanna Patil Savitribai Phule Mahila Ekatma Samaj Mandal (SPMESM) is creating opportunity by skill building among the young men and women mostly from slums to enable them to take up a job or become self-employed.

The institute is an ISO Certified not-for-profit organization, based at Aurangabad (Maharashtra) and operating since 1996. The organisation has made an impact by positively touching over 5 Lakh lives every year in 225 villages and 40 slums in 5 Districts of Central Maharashtra. In the attempt to provide opportunities of better livelihood to the slum dwellers and social economically backward communities. SPMESM is also involved in small term skill training courses.

JSSF has been associated with SPMESM since 2018 and is spearheading in four specialities - Food Tech & Catering Skill, Beautician course, Advanced Tailoring and Electrician courses. The training provides an opportunity to deprived women from the slums and providing platform for self-reliability to lead a dignified life. JSSF has exclusively supported 2 centres, namely Milindnagar and Mukundwadi wherein a total of 613 trainees successfully completed the course, out of whom 73 are gainfully employed. SPMESM provides handholding for those interested in setting up own businesses after the training. During the year 436 have started

their own ventures. The rest are in the process of finding a job or starting their own venture.

Performance during the year 2020-21

Note 1: Due to the lockdown, activities did not take place during the first quarter

Note 2: The above numbers are as on 31st March 2020. The job placement and self-employment are an ongoing process and the placement numbers keeps getting better.

Testimonies

a. **Kavita Indrani Navale** developed special liking for Cake- Making during her training at Food Processing and Catering Course. She has now started Cake Making and Delivery on large scale. With a marketing strategy using WhatsApp, Kavita has also added more food items to her list like Kachori, Samosa, Jalebi and Curry. She is earning around Rs. 17000 a month with the new venture and thanks SPMESM's training for this refreshing change in her life.

b. **Poonam Jogdand** – her father expired when she was 7 yrs old. After that the family responsibility came on her mother's shoulders. Poonum also wanted to help her mother. When she came to know about the beautician course at SPMESM, she readily enrolled herself in to it. She completed her course successfully and have opened her own Beauty Parlour in Pratap Nagar.

c. **Shraddha Kajale** had earlier completed Basic Tailoring from SPMESM's Tailoring Program but couldn't complete Advanced Tailoring Course as she

got married. Shraddha had to face domestic abuse and hardships at her in-laws and come back to her parents. She wanted to upgrade her skills and to be on her own earning sufficient for her two little daughters. She completed Advanced Tailoring at Mukundwadi center and learnt many designs. Even while she was completing the course, she got tailoring work orders. She says, "I learn many new fashion items and have started earning for my little family! Thanks to SPMESM"

d. Yuvraj Bagde used to work as an unskilled helper with an electric contractor to earn a meagre amount. Through a friend he came to know about the Electrician Training offered by SPMESM. He completed it and started his own shop- "Renuka Electricals". He earns 15000 Rs a month, more than double what he used to earn few months ago!

5. SUPPORTING GOVERNMENT SCHOOL AT BIJJAWARA VILLAGE, DEVANAHALLI, BANGALORE RURAL

It was a challenging time during the initial pandemic situation in March 2020. The schools were abruptly closed without annual assessment of the children. When the academic year 2020-21 begun, the team reached out through the parents on weekly basis to understand their situation and gave them the details on safety measures

- Prepared & Updated Digital Curriculum for classes 1 to 7
- Conducted classes through Whatsapp for 4th to 7th Std. Out of 45 students, around 21 students attended the class.
- Since August started Vidhyagama classes – a program started by Sparsha Team to reach children through technology support when the schools were closed due to pandemic
- Conducted unit tests
- Conducted classes for 6th and 7th std in the school as per the Govt instructions
- Installed 2 LED TVs for digital teaching in Government Higher Primary and Lower Primary at Bijjawara and Holerahalli respectively

Key activities during the year

Books, uniform & ration distribution

Capacity building for Teachers

Mandatory Covid Test for Children and Teachers

Digital Teaching

SDMC and Parents Meeting

6. S-VYASA YOGA UNIVERSITY, JIGANI, BENGALURU

Swami Vivekananda Yoga Anusandhana Samsthana is an exclusive Yoga University translating the vision and teachings of Swami Vivekananda to action through academic higher education programs. It is also the First ISO 2001:2008 Certified Yoga University.

Jai Shivshakti Health & Educational Foundation (JSSHEF), has been supporting S-VYASA university by providing education aids to the financially needy students. Amongst the graduated students, around 40% have been absorbed by the university after the course. The university has a record of cent percent employment.

JSSF till date has supported 60 students pursuing courses – Bachelor of Naturopathy and Yoga Sciences, Bachelor of Ayurveda and Medicine Science also has post-graduation specialized in Yoga Therapy at S-VYASA University. Out of whom 28 students have completed their courses and have started repaying the borrowed amount which will in turn go to future needy students at S-VYASA.

Highlights of the year:

- Due to the pandemic regulations, the online classes were commenced
- The practical classes were not conducted and thereby granting extension of for about 6 months to 1 year for various courses
- JSSF discussed with the management who were kind enough to grant wavier on the hostel expenses for lockdown period.

7. AYANG TRUST MAJULI ISLANDS, ASSAM

Ayang Trust was established in 2017 to address the several developmental challenges through collaborations with the locals in the community to enable holistic sustainable development.

Ayang collaborates with members of the local community (primarily the Mising Tribal Community) in an integrated approach to rural development to address the several developmental challenges. Through their efforts, among many

developmental programs one of the program that JSSF is engaged with is the Hummingbird School.

JSS was the first and enduring supporter of Ayang's work with Government primary schools in Majuli.

Over the last 4 years, The Hummingbird School has reached 250 children from 70 children in 2017. Within the short period of 4 years, the school has established itself well. The attendance in the school was near 100% throughout the year till

lockdown, and the students are exceeding their learning goals in short periods of time. The community involvement in teaching, administration and activities of the school is also very high, contributing towards its outstanding performance.

The school frequently hosts visitors from other schools from as far as Sikkim and Arunachal Pradesh. They come to observe and learn from its teaching and learning philosophies and methods. The school has become part of the B.Ed curriculum in both Dibrugarh and Kaziranga universities. It is evolving as a model school for providing excellent education to children from underserved and marginalized communities for the whole of North East of India.

Over the course of 2 years, since 2019 April to 2021 March, Ayang has been able to reach and work with close to 3000 children in 61 schools and multiple communities through:

1. Library Project in 31 schools
2. Whole School Transformation project which subsequently evolved as Manthan
3. Fellowship in 4 schools
4. Partnering with the district administration in cluster education improvement
5. project with 25 schools
6. The Hummingbird School that serves as our model school
7. During lockdown engaging close to 700 children in continued learning
8. Summer/Winter camps for children
9. Supporting development of 5 other community private schools in the community via teacher training, infrastructure development

8. NAVACHETHANA TRUST SCHOOL, BENGALURU

Navachethana trust is a non-profit, non-commercial voluntary organisation established to impart self-help education to the mentally challenged children. A creative centre for mentally challenged, this organisation was registered in 2001 with a vision "To make the lives of mentally and physically challenged better, by preparing them to face the world with confidence and courage."

Navachethana accommodates children from different walks of life, which include the economically weaker sections of the society, the mentally and physically challenged, and also children having multiple disorders. Lead by the founder Mrs. Vijaya Nayak, through her strong network in the field has been able to establish required support for the centre. The centre runs in a space provided by the Government.

Started with 5 children, Navachethana's strength today has grown up to 83, supported by a highly trained and professional workforce. The centre has a team of well trained and dedicated teachers providing quality education to children who hail from a variety of social backgrounds.

JSSF supports 10 of those residential children for all the needs at the centre.

Child centric interventions

Medical check-up

JSSF's plan for 2021 – 22

The pandemic has taught us many lessons. Due to the restricted movement, we could not visit our partner organisations to be part of the wonderful work being carried out by them in spite of several challenges on the ground. With hopes for betterment in the pandemic situation, JSSF has planned following activities in the coming days:

1. Support children affected by Covid to provide them the basic needs – food, shelter and education
2. Associating with Parivaar to support Seva Kutirs – residential place for needy children that provides nutritious meals, education, life skills and exposure to overall development
3. Emphasise on education and skill building programs
4. Retinopathy of Prematurity (ROP) – plan to expand the services to different parts of India like Kashmir, Rajasthan, West Bengal etc
5. Support Sankalp India Foundation to establish a blood bank in Bengaluru
6. Providing medical equipment/s to Sri Jayadeva Intitute of Cardiovascular Science and Research
7. Cancer screening to detect treatable cancers which high prognosis rate, such as oral, breast and cervical cancers
8. Providing infrastructure cost to Surabhi Trust to construct a hostel. Space will be utilized by children undergoing vocational training in nearby centres
9. Program for Senior Citizens.
